

SEVENTY IMPORTANT BOOKS REGARDING PARENTAL ALIENATION BY PARENTS OR FOR PARENTS

William Bernet, M.D. — August 2022

This annotated bibliography regarding parental alienation includes books from twelve countries—Argentina, Australia, Canada, France, Germany, Ireland, Israel, the Netherlands, Russia, Spain, the United Kingdom, and the United States (including Puerto Rico).

Most of these books were written by alienated parents, attempting to convey the tragedy and heartbreak that occurred in their own families. These books always have some form of resolution: perhaps achieving a mutually satisfying relationship with the child; perhaps accepting the loss of the child and moving on with their lives; and, very rarely, even in the death of the child.

Some of these books were written by mental health or legal professionals, but were intended to be read by parents experiencing a difficult divorce or, more specifically, parental alienation. In a few cases, parental alienation is discussed in only one chapter of the book. Many of the authors listed here are members of the Parental Alienation Study Group.
